## HUGE DEFICIT IN BUDGET IS GIVING ALARM

Premier MacDonald Hastens to London to Confer With Chancellor  
PAINFUL MEASURES MAY BE NECESSARY

LONDON, Aug. 11 (AP).—After an emergency trip interrupting his vacation at his home at Lassie-mouth, Scotland, Prime Minister MacDonald today held a six-hour conference with Rt. Hon. Philip Snowden, Chancellor of the Exchequer, and with leading British bankers on the schedule of the budget deficit, which has assumed most serious proportions.

While no announcement was issued, it was widely understood that the Prime Minister and Mr. Snowden agreed the budget must be balanced at all costs, although painful measures will be necessary.

CALLS CABINET COMMITTEE  
One immediate result of the conference was the summoning of a special meeting of the Cabinet economy subcommittee for tomorrow.

Has Important Bearing  
No meeting of the Cabinet has been called, for most of the ministers are holidaying away from the city, but the Prime Minister is expected to discuss the economy committee's report on the general financial situation in Great Britain.

VICE-CONSULATE BOMBED  
PITTSBURGH, Aug. 12 (AP).—The Italian vice-consulate in the fashionable Oakland residential district, was badly damaged by an explosion early today. Police expressed the belief the place was bombed.

The front of the three-story brick structure was wrecked, windows were shattered, several automobiles parked nearby were overturned.

B. C. Citizens Can Assist Themselves Toward Prosperity  
Government Is Commended for Urging Greater Preference for Home Products—Proposal Said to Be Solution for Unemployment Problem

CITIZENS of British Columbia can help themselves to achieve more prosperous times within the province, it was agreed at a conference held in the Parliament Buildings between representatives of the Government and of semi-public bodies called to discuss the proposed intensive campaign to gain additional preference for British Columbia products of farm and factory among the buyers of commodities in British Columbia.

As a result of the informal gathering definite recommendations are being advanced by a subcommittee appointed for the purpose to the Government. These suggestions will include a strong endorsement of the "Buy B.C. Products" idea as a means towards reducing unemployment.

LARGE IMPORTATIONS  
It was pointed out to Hon. W. A. McKenzie, Minister of Labor and Hon. William Atkinson, Minister of Agriculture, that \$20,000,000 worth of foodstuffs that could have been produced within British Columbia last year were imported for consumption in British Columbia.

## When World Leaders Held Conference

HERE are the delegates to the Seven-Power Conference as they gathered at the Foreign Office in London for the meeting called by Prime Minister Ramsay MacDonald in a further effort to aid in the solution of Germany's economic crisis.

Left to right, front, are: U.S. Secretary of the Treasury Andrew B. Mellon, Premier Pierre Laval of France, Foreign Minister Aristide Briand of France, Ramsay MacDonald, British Premier, U.S. Secretary of State, Henry L. Stimson, Foreign Minister Arthur Henderson of Great Britain. Behind them, beginning with man with white beard, is M. Renkin, of the Belgian delegation; next man unidentified; Baron Matsudaira of Japan, Dr. Heinrich Brüning, the German Chancellor, and Signor Dino Grandi, Foreign Minister of Italy.

## INSURGENTS KILL THIRTY

Cuba Tense Under Martial Law—Municipal Buildings Reported Burnt

HAVANA, Aug. 11 (AP).—Cuba continued tense tonight under a state of martial law, which was proclaimed today by President Gerardo Machado. There were reports of fighting and rebel movements from various places throughout the day.

From Santa Clara today came dispatches reporting rebel successes and rebel strength. These dispatches said that 300 revolutionaries invaded Santa Clara late last night, killed thirty soldiers, took twenty-five prisoners and retired before army reinforcements arrived. An announcement from the palace said insurgents had burned the municipal and other buildings in Yaguajay.

GOVERNMENT VICTORY  
The little town of Sierra Morena was reported in opposition hands. In skirmishes at Ranchuelo, Vinas and Sancti Spiritus, however, Government forces were reported victorious, taking fourteen prisoners. Five army airplanes flew over the town.

## WILL CONTINUE LABOR BUREAUS

Twelve Branches of Employment Service Doing Good Work in Province

By order-in-council yesterday, the Province renewed its agreement with the Federal Government in respect to the joint operation of branches of the Employment Service of Canada within the provincial boundaries. It was stated by Hon. W. A. McKenzie, Minister of Labor.

The system was established in 1918 and there are now twelve branches of the service within the province, located at Victoria, Vancouver, Nanaimo and other centres. The cost of the work is borne by the Dominion and Provincial Governments, officials of both services co-operating in the work.

Through the operation of the plan, which is part of an extensive chain of offices throughout Canada, much useful work has been done in the finding of permanent positions for men and women, as well as increasing by active effort the number of casual jobs that are made available to workers in the seasonal slack periods.

In Victoria and Vancouver local offices of the service have done notable work through "Give a Job" campaigns at Winter time, and in other ways, before the full tide of unemployment rose to the point where it became of national significance. In recent months the offices have acted as a material benefit in meeting the situation, and are being generally used now in the registration of transients in the centres where they are located.

## OBLIGATIONS TO BE REPAYED IN TEN YEARS

Nations' Financial Experts Arrange Details for War Debts Moratorium

PROTOCOL IS SIGNED AFTER THREE WEEKS

LONDON, Aug. 11 (CP).—Proposals of the United States for a year's holiday in war debts and reparations payments have been fitted into the Young Plan by the conference of financial experts of the interested nations, after three weeks' discussions here.

The experts at the evening, in the cabinet room of the Foreign Office, signed a protocol which provides the suspended payments shall be repaid in ten equal annuities, spread over the period from July 2, 1932, to July 1, 1943. This means there will be a year's interim between the expiration of the debt holiday and the beginning of repayments.

ABSOLUTE OBLIGATIONS  
The suspended payments shall bear interest at 3 per cent and shall be "absolute obligations involving no option of postponement," the protocol declares.

Other principal provisions of the protocol are:  
1. That unconditional annuities be continued on Page 2, Column 6

## MARKS ADVANCE IN LONG FIGHT

Cancer Hospital Announces Discovery of Substance Which Proves of Value

LONDON, Aug. 11 (AP).—The Cancer Hospital at Fulham, London, announced today the discovery of a substance which, it was declared, marks a great advance toward a knowledge of the combination of factors that make the incidence of cancer possible.

The substance, which is known as dibenzanthracene, is an organic compound of well-established chemical constitution which, it was stated, will produce cancers in the skin of mice when applied in a strength of less than one in 33,000.

OUTSTANDING SUCCESS  
The discovery was made in the annual report of the British Empire Cancer Campaign presented at the annual meeting in the House of Lords, July 30, where it was said that the two outstanding successes achieved in the past year. The other was production of substance from artificially-prepared substances.

The hospital refused tonight to elaborate on the discovery.

## Taxes May Drive Earl From Glamis

GLAMIS, Scotland, Aug. 11 (AP).—A sense of foreboding is settling upon this Forfarshire village, in Northeast Scotland.

Announcement by the Earl of Strathmore, father-in-law of King George's second son, the Duke of York, that he may have to abandon residence of Glamis Castle, because of high taxes, has cast a sombre spell upon the retainers of the estate.

## Lindberghs Land Near Nome

After Forced Descent When Heavy Fog Blankets Coast

NOME, Alaska, Aug. 11 (AP).—Hazards of storm and fog along the Northern Alaskan coast were passed for Colonel and Mrs. Charles A. Lindbergh, flying vacationers, when their arrival late today in sheltered Safety Bay, twenty-one miles to the east of here.

Colonel Lindbergh set his low-wing monoplane down on the protected waters at 1:40 p.m. (P.S.T.), at the end of a flight from Point Barrow, begun last night and broken by a landing in the fog near Shishmaref, on the north side of the Seward Peninsula.

## Flaming Forests Menace City of Fernie; Assistance Rushed From Cranbrook

Cannery Tender Burns

THE motor vessel Alasco, bound from Neah Bay to Anacortes with a cargo of 20,000 salmon, was threatened with destruction by fire, Monday morning. The timely arrival of the Black Ball Ferry, Se. Olympic saved the boat and her crew. The picture shows the Alasco shortly after being sighted from the bridge of the ferry boat.

## TURNOVER IN QUEBEC SEEN

Result of By-Election Taken as Sign of Changed Attitude

OTTAWA, Aug. 12.—Predictions in political circles here are that the Quebec Province, would defeat Premier L. A. Taschereau, Liberal Leader, in the provincial election, August 24. Capture by the Federal Conservative Party of the riding of Three Rivers, a Liberal stronghold, lends color to the belief that the thirty-year-old assurance of power of the Liberal machine in Quebec Province will be smashed.

Charles Bourgeois, Conservative, defeated Wilfrid Gariepy, Liberal, in the riding of Three Rivers by a forty-five vote margin. The riding had been held by Liberals without a break since 1900 and, in the general Federal elections last July, Arthur Bessie, Liberal, had a majority of 3,649. He died shortly after the election and the by-election had to be held.

Mr. Bourgeois stated that by its decision, the discovery was made in the annual report of the British Empire Cancer Campaign presented at the annual meeting in the House of Lords, July 30, where it was said that the two outstanding successes achieved in the past year. The other was production of substance from artificially-prepared substances.

## FRED A. STARKEY CALLED BY DEATH

Kootenay Pioneer Passes After Several Months' Illness—Was Prominent in Mining

NELSON, Aug. 11.—Fred A. Starkey, sixty-two, commissioner of the Associated Boards of Trade of Eastern British Columbia, a Kootenay pioneer and prominent in mining and industrial circles throughout the province, died here this morning after an illness of several months duration.

Mr. Starkey originally came from Winnipeg. In several points in Nelson where he was manager of Parson's Produce Company. He conducted this business until 1900 when he entered a similar business for himself which he conducted until 1910. In 1924 and 1925 he acted as commissioner for the British Columbia Department of Mines at the great Wembley Exhibition in Britain.

## Winds Whip Fires Into New Activity

SPOKANE, Aug. 11 (AP).—High winds whipped forest fires over the lines today at several points in the Northwest, and rangers feared they would have to quell them all over again. Between Ione and Metaline, Wash., fires flaring in state and private timber threatened settlers, so that rangers warned them to leave. There were scores of small fires.

## NEGOTIATE FOR PEACE

HONGKONG, Aug. 11 (AP).—The Hong Kong Government of Canton and Nanking were unofficially reported today to have reopened negotiations for peace, with Nanking suggesting a conference at Shanghai.

## Only Favorable Wind Can Save Kootenay Coal Centre From Destruction

RESIDENTS MAY EVACUATE CITY

FERNIE, Aug. 11 (CP).—Forest fires tonight burned fiercely one mile north of this mountain city and brought fear and anxiety to its 6,000 inhabitants. A south wind alone is saving the city from destruction.

Painting the sky a lurid red and scattering cinders and embers for miles around, the fire outbreak along the Lizard Mountain Range has jumped creeks and sped south and west, eating stands of cedar and spruce valued at thousands of dollars. For a while tonight cinders fell on Fernie buildings like a June rain.

While many Fernie residents have been rushed to fight the flames, fire-fighting equipment arrived from Cranbrook. One thousand feet of hose has been stretched through city points ready to pour water on any buildings that may be ignited by the burning embers.

CONSIDER EXIT  
Groups stood around Fernie streets some of them proposing a general exit from the city. While the wind remains from the south, as it did throughout the day, the city will be safe, but should the wind change and blow from the north, it will carry the fire over the one-mile stretch of woodland in short time and bring destruction to the city.

Three separate fires can be seen from Fernie, but it is the flames from the Lizard Range which are encroaching on the city. This fire originated over two weeks ago near Wardner and has traveled thirty miles, cutting the East Kootenay Power Company's 66,000-volt line three times and destroying ten poles. Another thirty poles on the line of the East Kootenay Telephone Company have been destroyed.

JUMPED CREEK  
Strong westerly winds on Monday carried the flames along the north side of Big Sand Creek and by dark it had reached the Lizard Mountains. Flames shot down the Fernie side of the mountains, destroyed timber in the Lizard Creek Valley and jumped Fairy Creek to ignite timber on Proctor Mountain, which is one mile north of here.

The outbreak in the Iron Creek Valley, burning for several days, is still unabated and huge clouds of smoke are being driven north over Fernie.

In the area of the south fork of the Elk River, north of Elk, another fire is raging. This fire is believed to have been started two weeks ago by a cigarette thrown from an automobile.

## ROMANIAN BANK FAILS TO OPEN

BUCHAREST, Aug. 11 (AP).—The Bank of Bercovitz, which was considered the soundest institution of its kind in Rumania, failed to open today, and police had to clear the streets of anxious depositors.

The reason for the bank's difficulties was said to be withdrawal of Rumanian credits during the recent crisis.

## Communist Leaders Taken Into Custody On Sedition Charge

Toronto City Police Make Arrests and Seize Documents in Raid on Headquarters of Party—Third Officer Sought

TORONTO, Aug. 11 (CP).—Two Communists were arrested and a quantity of Communist literature seized as the Ontario Provincial Police raided headquarters of the Communist party here and various other Communist organizations tonight.

The raids were conducted under the direction of General Victor Williams, commissioner of Provincial Police, on instructions from Hon. W. H. Price, Attorney-General of Ontario.

General Williams informed the Canadian Press the police were seeking certain Communists in Northern Ontario and also Thomas Even, of Toronto. Late this evening he had no information of any arrests except those of Tim Buck, political secretary of the Communist Party of Canada, and John Boychuck, chief secretary of the Workers' Unity League. Both these men were taken into custody in Toronto.

CONFINED TO ONTARIO  
OTTAWA, Aug. 11 (CP).—While nothing could be obtained from headquarters of the Royal Canadian Mounted Police tonight in connection with the raids in Toronto on local Communists, it was learned that these are confined to Ontario—for the present, at least.

MINISTER COMING TO COAST  
VANCOUVER, Aug. 11.—Hon. R. J. Manion, Minister of Railways, will arrive in Vancouver Wednesday at 9 a.m. It will be the first trip the minister has paid to the West since assuming his portfolio in the Dominion Cabinet. He is in the West on railway inspection.

## WEST COAST SCOUTED FOR MISSING MAN

Weary Volunteers Keep All-Night Vigil for B. A. Moorhouse, of Victoria

POLICE PUZZLED  
BY NEW PHASES

Twelve weary and begrimed men searched last night the rugged, treacherous coastline north of Jordan River for B. A. Moorhouse, missing Victoria reily man.

On a little promontory, near the scene of the search, a flashing beacon shot its gleaming rays across the crevice-scarred terrain, guiding the men in their all night vigil.

The staunch band of volunteers all day yesterday penetrated the dense undergrowth, strewn with decaying logs and treacherous pitfalls.

a place seldom visited, were explored to their very ends and hillside echoed back the shouts of those endeavoring to solve one of the most baffling disappearances in Victoria's police annals.

Mr. Moorhouse vanished completely on Monday, August 3, after he left his summer home at Langford Lake. He bade his wife good-bye and said he would "see her at dinner time." He arrived at his office at 715 Fort Street, chatted a few minutes with members of the staff, then went out, and has not been seen since.

Immediately following publication of the report that he was missing, police learned from several persons that a blue sedan automobile, similar to that in which Mr. Moorhouse disappeared, had been parked at the end of the West Coast road for nearly a week.

CAR IN LONELY SPOT  
They had not paid much attention to it, they said, until they saw the story in the newspaper. Investigation revealed that the car was undamaged and had been driven as far as it could go on the West Coast road, which ends almost on the beach north of Jordan River.

In the car was found his hat, some telephone books and papers. Nearby his walking cane was discovered. There was nothing to indicate that there might have been foul play and no footprints to indicate in which direction he may have gone or been.

Inquiries at the Leigh Realty & Construction Company and the Moorhouse home elicited the information that there was no business known that would take him so far north of Victoria. His office reported it had no real estate holdings in that district, while Mrs. Moorhouse did not know of any property whom her husband might have been taking around on Monday.

MOTIVE SOUGHT  
The man's machine was found forty-six miles north of Victoria, at a lonely spot on Vancouver Island's West Coast. What took him to this isolated shore, whether he was accompanied by anyone or whether he responded to some strange sudden impulse, is the perplexing problem that is confronting police.

While friends have answered a response for help and are searching the West Coast country, a distraught mother consoles her bewildered daughter, helpless to render aid to those who are searching and unable to give any information that might solve the mystery.

COMB WILD COUNTRY  
Mr. Moorhouse, who was explained, is a land surveyor, who has had considerable experience in the interior of British Columbia. Such wild country as is now being combed by searching parties was his home for many months while on survey work.

This phase of the case only adds another puzzling situation, as it is explained that an experienced woodsman would have no difficulty reaching civilization, especially if lost in the hills which rise from the coastline. The thundering surf would be guide enough for such a man, it was explained.

POLICE CO-OPERATE  
While the search continues, city, Provincial, Oak Bay, Esquimalt and Saanich police are making inquiries in other quarters. The city detective force has made discreet inquiries among his associates, but so far has been unable to furnish any information that might explain Mr. Moorhouse's disappearance.

His temperate habits, his excellent health, happy domestic relations, total lack of disability of any kind and no financial worries are all contributing factors to the mystery.

Rumors of the favorable trade balance for the first nine months of 1930 was the largest in the history of the country.

Mounted Police  
Raid Chinatown  
And Arrest Man

ROYAL Canadian Mounted Police raided a Chinese boarding house on Pigeon Street late last night and arrested Mah Chong on a charge of being in possession of narcotic drugs.

After completing the raid, police returned to the establishment and made a thorough search for opium, believed to have been hidden about the premises.

A considerable quantity of material, alleged to be narcotic drugs, was taken when Mah Chong was arrested, it was reported.

B.C. DISTILLERS  
OPEN BATTLE IN  
EASTERN COURTS

Continued From Page 1

agent for the sale of their products for export in bond and delivery at or through points outside the province, excepting bona fide sales of their products for delivery in any foreign country for consumption in that country.

"The plaintiffs," says their declaration, "were induced to enter and did enter into the said agreement under false and fraudulent misrepresentations." It is charged that the defendants furnished misleading figures of their sales during the year ending September 30, 1930.

SAY AGREEMENT ILLEGAL  
The agreement, it is claimed, "is illegal, null and void, because it is in violation of the provisions of the Export Act as amended by chapter one of the Statutes of Canada, 1930, as it is an agreement really directed towards carrying on of a trade in involving essentially the procuring of releases and removals of intoxicating liquors held in bond or under Dominion control, for the purpose of having it cleared and entered for exportation so that it may be finally delivered in the United States of America, where importation of such liquor is prohibited by law."

It is further contended the agreement is null and void because "the parties to it dominate this trade and control most of it, the Northern and the Southern distillers' trade, and the agreement, taken as a whole, was intended to have the effect of and will result in the parties thereto controlling and dominating the whole distillers' trade in Canada, abolishing competition among producers as to this and other similar goods of the trade, all to the detriment of and against the interest of the public."

SALES IN UNITED STATES  
The plaintiffs also charge that several companies, acting jointly under the name of the Northern Trading Company, have sold in Canada and delivered outside Canada for destination to the United States, large quantities of products of the British Columbia Distillers' Company, Ltd., as well as of the defendants, and collected the proceeds of the sales from these products.

In the case of the British Columbia Distillers' Company, Ltd., the amount collected is claimed to have been \$708,026.50, of which the plaintiffs declare that the amount of \$508,404.13 unpaid and due to it. The defendants, it is alleged, have refused to acknowledge the plaintiffs' claims to the money.

In conclusion the plaintiffs ask that the agreement of January 1, 1931, to be declared null and void, and that the amount said to be owing to them be ordered paid.

WOULD CONTROL  
YOUNG DRIVERS

Commissioner North Says Youth  
Prove Manner on Streets—In-  
vestigation Is Urged

Police Commissioner Mrs. J. C. North deems it necessary that serious consideration be given to what she believes to be a grave situation resulting from the automobile driving by youths. She points out that several accidents have recently occurred in the city where juveniles have been in charge of cars.

"The safety tests now being made on Yates Street, no doubt, are good and form a necessary basis for preventing future accidents, but why allow sixteen or seventeen-year-old boys and girls (who are under age) to drive commercial and other vehicles?" asked Mrs. North. "They have no sense of responsibility, and in many cases assume full right of way on all roads, and their material factor in preventing them from coming to grief sooner or later is that the other driver always gives them the right of way."

"During the last few days there have been two accidents by drivers under age. The responsibility of the same justifies the most careful consideration and investigation by the chief of police and commissioners, and I would suggest that the chief and commissioners take it up at the earliest possible moment, so as to protect the public and prevent future accidents."

Scouts Executive to  
Meet Next Friday

Meetings of the executive committee of the Boy Scouts Association, Victoria District, will be held at the scout headquarters, 1034 Johnson Street, on Friday night at 8 o'clock and 8 o'clock. A full attendance of members is requested.

OTTAWA, Aug. 11 (CP).—Civil servants who accept temporary employment during their holidays will be subject to immediate suspension, according to an order-in-council, terms of which were made public today by Senator G. D. Robertson, Minister of Labor.

WOULD BE BENEVOLENT  
H. B. Thomson, former food controller for Canada, was requested to give the results of his experience and outlined many ways in which the food of British Columbia could be benefited by such a drive under Government auspices as had been suggested.

Frank Patridge, of the Junior Chamber of Commerce, told of the efforts made by that organization to encourage the extension of the food market for the products of British Columbia, Canada and the Empire.

In the subsequent general discussion it was pointed out that British Columbia manufacturers and producers could assist themselves by a greater use of newspaper advertising, acquainting the public with the brands that they were offering for sale. It was also suggested that they take greater care in distinctly marking their products as being of British Columbia origin.

A committee from the meeting

was appointed to make concrete suggestions to be placed before the Government as to the scope and character of the proposed campaign.

FAST TIME  
TO LONDON

Official Promises to Put  
Metropolis Within Five  
Days of Coast

Inauguration of a transatlantic air mail and passenger service which will place the Pacific Coast within five days of London, the complete lighting of 20,000 miles of airway in Central and South America, with the subsequent scheduling of night flights, speeding up the service over the entire network, and the shift from smaller airplanes to forty-passenger flying boats, are some of the developments already started or planned by Pan-American Airways, according to an address delivered to members of the San Francisco Chamber of Commerce by Alvin E. Peterson, mail traffic manager, last night.

"It will not be any longer than a year and half before letters mailed in San Francisco Saturday will reach London Wednesday on the transatlantic line, which Pan-American Airways has planned," Mr. Peterson stated.

We do not know whether the line will be by way of Nova Scotia and Greenland or by way of Bermuda. The line is training its pilots on water flying, however, and is testing equipment which will be used in the service."

LIGHTING SCHEME  
One immediate project to be started by Pan-American Airways is the lighting of the network over the entire world, on to the daylight. Already a forty-passenger Sikorsky flying boat, equipped with four 575 horsepower Hornet motors in a row on the upper wing, has been delivered to the base at Miami, and gradual cutting down of time between cities has been started.

Making faster schedules in the huge airways system, which spreads over Central America and South America like a great spider web, is a job that the company's executive managers. All the schedules are nicely dovetailed now and will be rearranged as effectively with speedier and more definite programs of improvement.

To operate 3,500,000 miles annually over the 20,000-mile airway, Pan-American Airways employs more than 100 pilots, 100 mechanics, and 200 other personnel; has more than 100 airplanes, of which many are multi-motored craft; has forty-two radio ground stations which are in communication with the planes at all times; works under contract with twenty-five different nations to conduct its own flying school for pilots, and spends \$7,000,000 a year for payroll, equipment, airports and improvements.

CAREFULLY TRAINED  
Part of the progress of the airline has been due to the careful training of pilots, according to Mr. Peterson, who is executive vice-president, with many hours of sea time to their credit, since 70 per cent of the flying is done over water. At Miami, they are put through a routine school, where they learn navigation, blind flying, emergency repair work, radio, weather conditions, and how to receive instructions on all types of planes used in the service.

Standardization of equipment has also aided in solving operation problems. Of the 100 airplanes used, sixty are Sikorsky flying boats, four are eighteen-passenger Commodore flying boats, and the rest are tri-motored Ford, Pratt and Whitney or Pratt and Whitney.

employed would be able to find work, it was said.

PAYS TRIBUTE  
Hon. Mr. McKenzie, in opening the conference, paid high tribute to the work that had been inaugurated twelve years ago by the Vancouver Board of Trade with the co-operation of the Canadian Manufacturers' Association, in establishing a consistent campaign for the increased purchasing of British Columbia products.

This effort of the British Columbia Products Bureau, of the Vancouver Board of Trade, said Mr. McKenzie, had accomplished a great service to the community. In advocating Government action along similar lines, he said, it was not intended that the idea should be promulgated as something that might rather than the efforts that had been and were still being made by the bureau be enlarged and intensified.

was appointed to make concrete suggestions to be placed before the Government as to the scope and character of the proposed campaign.

MAKING PROGRESS  
WITH CONVERSION

STEADY progress is being made with the central feature of Australia's great programme of rehabilitation—the converting of the entire internal loan to lower interest rates. It was announced tonight that one-fifth of the total internal loans of \$2,780,000,000 had been converted to the lower rates. The Commonwealth Bank has converted all its securities, totaling \$285,000,000, while the Australian Mutual Provident Society has converted holdings of nearly \$125,000,000.

INSURGENTS KILL THIRTY  
Province of Pinar Del Rio today, seeking detachments of insurgents, but the planes returned to report they observed nothing.

PILOTS ARRESTED  
Opposition headquarters today claimed four of the Government's twenty-eight pilots have rebelled to the insurgents. The report of the air reconnaissance patrol, the insurgents continued to claim strength in Pinar Del Rio.

CACHE YIELDS THIRD LOAD OF  
ARTICLES—TWO PLEAD GUILTY  
TO AUTO THEFT

PROVINCIAL police were kept busy until late last night with persons identifying allegedly stolen articles found in a mountain cache at the foot of Mount Malahat on Monday.

Staff Sergeant Robert Owens, and Corporal R. Harvey brought in a third carload of goods yesterday, after which the process of identification began.

The four arrested in the raid, which preceded the confiscation of thousands of dollars worth of rugs, kodaks, motion picture cameras and automobile accessories, appeared in police court yesterday.

The two women, Mrs. Marjorie Arnold and Irene Blair, of Saanich, wept as they pleaded not guilty to charges of vagrancy. They were remanded until today for trial. They professed to know nothing of what police believe to be a thieves' cache at Goldstream.

Eric Hillier and James Arnold, of Vancouver, pleaded guilty to a charge of stealing an automobile owned by Ray Castle, of this city. They were remanded for sentence.

IN SAANICH COURT  
At a special session this morning of the Saanich court, Hillier and Arnold, who gave their ages as twenty-one and twenty-two years respectively, will appear to answer charges of theft in connection with the ransacking of six cars in Saanich Municipality recently.

Oak Bay police have inspected the articles brought in by the police, and declare some of them answer the description of goods reported stolen from automobiles in that municipality.

Many large shipbuilding plants in Scotland are being merged into a new concentrated-production plant.

Regarding intergovernmental debts to the United States the report said formal steps in the suspension of inter-Allied war debts payments during the Hoover year "will be arranged between creditor and debtor governments direct in each case."

The principal documents, the protocol being accompanied by various appendices, are signed by Germany, Great Britain and the British Dominions and India, Japan, France and Italy. The United States, although represented by Hugh Gibson, ambassador to Belgium, as witness, did not participate directly in the negotiations and therefore did not sign anything.

CHILD NARROWLY  
ESCAPES DEATH

The seven-year-old son of Mr. and Mrs. J. E. Nottingham, of 175 Battleford Avenue, miraculously escaped death yesterday evening when run over by an automobile driven by John Maggiora, manager of the Westholme Hotel.

The boy, according to Mr. Maggiora, ran out from behind a parked car on Cadillac Avenue directly in the path of his machine. When the driver first saw the child, he was only four feet away.

Before the car could be brought to a stop, the wheels had passed over the boy's body.

Mr. Maggiora, jumped from his car and rushed to the boy's aid and found him being helped to his feet by an older brother. When the driver said he would take the child to the hospital, the boy immediately cried and said he did not want to go there.

It appeared that the child had sustained only bruises and was not in need of medical assistance.

## PUTS BAN ON SOLICITING

Council Passes Measure to Prohibit Operators Seeking Trade on Streets

"No person shall, in any street, or at any wharf, dock, pier, steamboat landing, railroad station or public place, in the City of Victoria, solicit or importune others to ride, or travel in, or employ any vehicle."

The above amendment to the Streets Traffic and Regulation By-law, instituted in 1926, was passed by the City Council at its meeting yesterday morning, on recommendation from the Board of Police Commissioners. The measure has been before the council since last May, but had been postponed on various occasions due to legal technicalities involving prohibition of soliciting by sightseeing company operators.

**PRIVATE PROPERTIES**  
The amendment to the by-law, while it prohibits soliciting, does not interfere with the rights of companies having concessions on private property and these may continue to solicit patronage without danger of prosecution. Although it was charged on various occasions by individual members of the council that the amendment was a discrimination, it was pointed out the City

Council could have no control over private properties.  
City Solicitor H. S. Pringle, prior to the adoption of the amendment, called attention to a section of the Criminal Code of Canada, which provided for prosecution and conviction of persons interfering with the progress of passengers in public places, and it was recommended that the section of the code be made to apply here. Mayor Herbert Anson stated that the difficulty had been to secure evidence and the unwillingness of tourists to remain over while the trial was in progress.

Alderman W. T. Straith suggested that the section of the code be tested and, if found to be irrelevant to the city's procedure, the amendment to the by-law could then be put into effect. He stated he considered the amendment, in view of the existing section, might be considered ultra vires of the council in attempting to override an existing regulation.

**COMPLAINS TO COUNCIL**  
In connection with the discussion of the amendment a letter was received from Thomas Kelway, complaining of conditions in the locality of his restaurant which brought from Alderman Robert Smith the statement that "it is a disgraceful state of affairs and one that should be immediately cleaned up." In that statement he had the support of the council. Aldermen Alex Peden and R. T. Williams, however, voted in opposition. The grounds for opposition taken by Alderman Peden were that the measure was a discrimination and that the amendment should be made, if possible, to apply to all companies, including those operating on private property. City Solicitor Pringle stated the council

could have no jurisdiction over private property.  
Alderman H. O. Litchfield raised the question of the application of the amendment to hotels. Mr. Pringle explained that the amendment did not apply to hotels whose operators were soliciting for hotel patronage and not for vehicle hire. The amendment by-law was finally passed and is in effect as from the time of its passing.

## REVIEWS TOUR ON CONTINENT

J. G. Brown Tells Members of Kiwanis Club of European Visit

A review of his recent tour of Europe was given by J. G. Brown to the members of the Kiwanis Club yesterday at the luncheon meeting in the Empress Hotel. Unfortunately, the time at his disposal proved too short to give other than a few of the highlights of his travels.  
Mr. Brown visited several of the cemeteries in the battle area of France, and went to the graves of many of his former friends. In many instances he took photographs of these graves for relatives and friends here. Mr. Brown said that the cemeteries containing thousands of graves were kept in perfect shape. There appeared to be no difficulty whatever in finding any grave sought. The layout of the plots was perfect and a record was kept at the gate so that one had only to inquire there and obtain the location, when it was a simple matter to go directly to it, he said. There was a slab placed on the grave bearing the name and record of the soldier. The cemeteries were well kept and had flowers about the graves.

**EXPRESSIVE MONUMENT**  
A monument being erected by the Canadians at Vimy Ridge was described by Mr. Brown as one of the most impressive that would be placed in the battle area.

The speaker took occasion, in the continental countries, to visit many of the old cathedrals, which, he said, showed that the architects of the olden times possessed wonderful skill.  
In England he saw no distress. Stores were paid as before and interest on investment. This was true of a store like Harrods', he was told. A hearty vote of thanks, proposed by B. C. Nicholas, was accorded Mr. Brown.

## ACCUSTOMED TO PLAN BIG DEALS

Reported Saviour of Labrador Said to Be "Kitchen Director" With Large Ideas

NEW YORK, Aug. 11. — The World-Telegram says today that Jeannette M. Lewis, recently released from the Newfoundland Government, is to be sent to Labrador to save Labrador from the auction block, has been identified as a Greenwich Village "kitchen director."

She presided over the kitchen of a restaurant in Seventh Avenue, formerly operated by her sister, Mrs. Tom Foster. Leaving the kitchen occasionally, The World-Telegram says, she would sit with the guests and tell them of big timber holdings she said she had in Canada.

Mrs. Foster and friends of Miss Lewis said she was away at present, but would be back in a few days, and, as she was continually planning big deals and speaking in millions, they were not at all surprised at her decision to save Labrador. None knew where she planned to get the money she had offered.

**LABOR LEAGUE ASKS RELEASE OF RONALD STEWART HELD HERE**  
Demanding the unconditional release of Ronald C. C. Stewart, now on bail pending his trial on a charge of inciting to mutiny, the Finnish branch of the Canadian Labor Defence League at Montreal addressed a letter to the Victoria City Council, which was read yesterday morning.

The letter draws attention to the section of the Criminal Code under which the accused Stewart is to be tried as an ancient edict. The members of the council agreed to file the letter. Alderman R. T. Williams asked that the letter be laid on the table for further consideration, at that there were some matters in it that could be gone into. Alderman W. T. Straith stated: "The council cannot interfere in this matter. The man already has had his preliminary hearing and has been committed for trial and is at the present time out on bail."

## Oil Magnate at Home

JOHN D. Rockefeller, Sr., is here shown with his two great-grandchildren at his Pocantico Hills estate, Lakewood, N.J. The children are Elizabeth, 12, and John, 10, and Mrs. George de Cuevas, Mrs. Rockefeller's daughter.

## PREPARATIONS BEING MADE FOR VETERANS' TAG DAY AUGUST 15

Hatt's Hall, 1418 Douglas Street, will be the headquarters for the tag day next Saturday, August 15, in aid of the Tuberculous Veterans' Association funds. Refreshments and every possible assistance will be provided for taggers and workers taking part in this event.

Women's organizations are asked to convene special corners, and may telephone Mrs. Booth, G 5039, or Mrs. Campbell, G 2781, in that connection. Communications may be mailed to the honorary secretary, treasurer, P.O. box 1145, Victoria.

The general public know the aims and objects of this association, and the tuberculous veterans feel confident that this appeal will not be in vain.

## WOULD IMPROVE VICTORIA PARKS

City Council Hears Suggestions for Using Relief Funds at Beacon Hill Grounds

Questions concerning the method of expending city relief money were raised at the meeting of the City Council yesterday morning when Alderman Herbert Anson, treasurer, P.O. box 1145, made a statement of work so far accomplished.  
Mayor Herbert Anson reported that during this year five and a quarter miles of streets had been built, two-thirds of a mile of sewers laid, one and three-quarters of a mile of street surfacing completed, and two-thirds of a mile of water mains placed. In addition to work given to single men at the camps and work being done on the Macdonald estate property.

While the matter of unemployment relief was under discussion, Alderman Dewar suggested that some definite action be taken with regard to Beacon Hill Park. He said he had recently returned from an inspection of Stanley Park at Vancouver, where considerable unemployed labor was being employed. He asked that the council, in making future grants to unemployment relief, keep Beacon Hill Park in mind and lay out a definite scheme of improvements there. He said that money expended in that way would be almost entirely in labor.  
Alderman H. O. Litchfield supported the suggestions of Alderman Dewar and urged that the council give consideration to the setting out of a plan that would govern city beautification over a period of years. He did not agree with the plan of patch work, and believed the city should define a policy of permanent improvement to be carried out with unemployment relief.

## PICNIC TODAY AT ESQUIMALT

Conservatives of Riding Will Gather This Afternoon at Saxe Point

A big Conservative gathering will take place this afternoon at 2 o'clock at Saxe Point at the foot of Fraser Street in Esquimalt. This is the annual picnic sponsored by the Esquimalt association, when political speeches will be given by prominent leaders in the party. In addition there will be a programme of sports and a band concert during the afternoon.

The list of speakers includes Premier Tolson and Attorney-General Pooley, the latter being the representative of the riding in the Legislature.

In addition to these speakers, other members of the Government are expected to be present and address the gathering.

The picnic grounds are easily reached by automobile or by leaving the Esquimalt street car at Fraser Street.

## ONE IN FOUR IS TRANSIENT

Presence of Young Boys on Freight Trains Is Disturbing Element

Registrations under the provincial unemployment relief plan reached 14,645 up to yesterday evening, according to members of the Cabinet Committee on Unemployment. Of these applications, 12,075 had been checked over and analyzed, disclosing 2,794 transients, 8,000 municipal residents, and 1,281 provincial residents.

Of the 12,075 recorded up to Monday evening, 9,479 men had expressed their willingness to go to highway work camps, if required. Only fifty women have registered under the plan so far, and 2,531 persons of non-British birth. Registration is continuing, and is showing signs of slackening off in several areas of the province.

Interior points on the line of rail communications show a congested totals for small centres, due to the registration of transients, or those who entered the province within the last three months.

The presence of a number of 'teen age boys in this class has led to renewed representations to the Federal Government to implement measures to permit the enforced return of juveniles to their homes. These boys are reported to be riding backwards and forwards on freight trains for adventure.

The Unemployment Committee of the Cabinet today will grant auditors to a delegation of Comox, Cumberland and Nanaimo residents, who, headed by Dr. G. K. MacNaughton, member for Comox, are on their way to Victoria to take up with the committee proposals of Island boards of trade. Mayor Bridgman, of North Vancouver, met members of the committee yesterday on unemployment matters.

## BETTER FEELING IS KIWANIS AIM

International Secretary Stresses Need for Greater Fellowship Between Nations

The building up of a spirit of greater fellowship between the countries of Canada and the United States to bring about a valuable contribution to the ideal of internationalism, which might be spread throughout the entire world, is the aim of the Kiwanis Clubs, according to Fred C. W. Parker, of Chicago, international secretary of Kiwanis, who is spending a few days in the city.

It is the object of the Kiwanis movement to have strong local organizations, which, by the development of a spirit of friendliness, and by the creation of pronounced leadership within the individual clubs, contribute to the greater ideal of world peace.

## IN BOYS' WORK

The clubs throughout the country, said Mr. Parker, are doing excellent work in the various enterprises in which Kiwanis has become associated. The work for boys and girls in vocational guidance and the many other branches of work were all being promoted more vigorously than has been the case in the past. Mr. Parker expressed the opinion that never before had the Kiwanis movement been more extensively and efficiently at work in the various communities in which it was represented.

The membership through these trying times has shown remarkable stability. There was, it was true, a slight loss in the net membership, but it was not due to any tragic decrease in any clubs. It was, rather, due to the fact that there had not been the same number of new clubs formed, he said.

**LAUDS VICTORIA CLUB**  
Mr. Parker praised the work of the local club and referred to the leadership which had been shown by such members as Kenneth Ferguson and Harold Diggon.  
On his way West, Mr. Parker stopped at Helena for the Montana district convention. At Spokane he attended an interclub gathering of the Kiwanis leaders in that centre. Later he visited the Olympic and Port Angeles Clubs, reaching Victoria yesterday.

Visits to Nanaimo and Vancouver will be paid before the international secretary goes to Tacoma to attend the Northwestern convention, which opens there on Sunday. Last night he had a long and interesting discussion of matters of interest with Mr. Parker, who is accompanying her husband on the Western tour.

"What kind of a car have you?"  
"Mine's a wreck."  
"A wreck?"  
"Yes. Every time I leave it anywhere people come up and ask me if I've reported the accident yet."

## WOMAN RESCUES TWO FROM DEATH IN LAKE

MONTREAL, Aug. 11 (CP). — Without any aid, Mrs. Emmanuel St. Jean yesterday rescued two people from drowning in Lake St. Louis. The woman saw Emile Perrot and his wife, of Saskatoon, Sask., overturn in a canoe near the mouth of the Chateauguay River. Mrs. St. Jean plunged into the lake and swam to the canoe. She

brought Mrs. Perrot ashore and then swam out again for the man. Perrot had sunk from sight for the third time. Mrs. St. Jean swam to the spot and dived below the surface, finding Perrot lying unconscious on the bottom. She succeeded in bringing him to shore, and both husband and wife were revived by artificial respiration.

Italy expects to save more than \$400,000,000 a year as the result of the recent reduction of Government and other salaries.

## Air Force Officers Making Ready for Schneider Race

British Out to Beat Own World Records for Speed in Air—French and Italians Expected to Be Opponents

CALSHOT, Hampshire, England, Aug. 11 (CP).—Roaring in swift seaplanes over Southampton waters, picked speed pilots of the Royal Air Force are preparing to battle hard for the Schneider Trophy they have already won twice in succession. If they win again they will win the trophy outright and permanently.

British planes last time, in 1929, tore over the 200-mile course at six miles a minute to defeat France and Italy. Outside the actual Schneider races, the British high-speed pilots made world records which still remain unbroken. This year they want to beat their own records. They have "hush hush" planes, whose exact speed capabilities are carefully guarded secrets.

### EIGHT IN TRAINING

The race will take place on September 12, and Italy and France are again expected to be Britain's opponents. Which three machines will actually represent Britain in the world's greatest speed test, and the classic of aviation, will not be decided until the eve of the contest. Eight pilots of the Royal Air Force have been in strict training for months and three of them will be chosen later to pilot the machines.

The contest again will be largely an affair of Governments. In this respect it is unique in the world of sports, if indeed it can be classed in the world of sports and its highly important strategic aspects put in the background.

The second of two new British seaplanes reached Calshot today. The engines of both planes are concealed beneath white duralumin for the most part, with few gadgets visible, and to the lay observer they convey little, except perhaps a slight impression of great power in re-

serve. They seem rather like strange, lean sharks which suddenly dart from the water and cross the horizon in a roar of power and a blaze of speed.

### NEW CONDITIONS

The course, again over the waters of Spithead and Solent, covers 217 statute miles. Conditions introduced for the first time this year require all aircraft to carry out certain preliminary trials on the day of the race before the actual contest, and these preliminaries have necessitated some changes in design. To cover both preliminary trials and the actual speed contest, the machines have to carry a greater weight of petrol, which, of course, tends to increase weight in other directions. The new conditions are roughly estimated to amount to an extra lap of the race.

It is doubtful whether the great increase in speed marking the successive races so far will be maintained this year, in view of the new requirements.

### MADE MEMBERS OF PENSION TRIBUNAL

OTTAWA, Aug. 11 (CP).—Lieut. Gen. Sir Richard Turner, V.C., Quebec, honorary president of the Canadian Legion, and Brig. Gen. H. F. MacDonald, C.M.G., D.S.O., Vancouver, have been appointed members of the pension tribunal. The tribunal functions in quorums of two traveling in various parts of the Dominion, hearing applications for pensions by former members of the Canadian Expeditionary Force. Official announcement of the appointments was made late this afternoon.

## Company of H.M.C.S. Skeena

### Obituary

HUDSON.—At St. Joseph's Hospital, Monday evening, the death occurred of Sarah Pirie Hudson, wife of John Hudson, chief engineer of the S.S. Princess Maquina. Mrs. Hudson was born in Aberdeen, Scotland, and had been a resident of Victoria for twenty-five years. She is survived by her husband and one nephew, Reginald Wood, at the family residence, 1125 Faithful Street, and one brother and sister in Australia. The funeral will be held from the Sands Funeral Chapel on Thursday afternoon at 2 o'clock. Rev. J. S. Patterson officiating. Interment will be in Royal Oak Burial Park.

FELSTEAD.—The funeral of William Felstead, who passed away in this city on Monday, will take place on Thursday afternoon, proceeding from McCall Bros. Funeral Home to First United Church, where service will be held at 2 o'clock. Rev. Bruce Gray officiating. Interment will be made in Ross Bay Cemetery.

CARLSON.—The remains of Baby Haines Allan, three-and-a-half-month-old son of Mr. and Mrs. Verner Carlson, were laid to rest yesterday afternoon, the cortege leaving Hayward's B.C. Funeral Company's Chapel at 2 o'clock, proceeding to Ross Bay Cemetery, where burial took place. Rev. Theo A. Jansen conducted the rites. Many beautiful floral offerings were received.

BEDINGFIELD.—The funeral of Richard Bedingfield will take place this morning, the cortege leaving Hayward's B.C. Funeral Company's Chapel at 8:45 o'clock, proceeding to St. Andrew's Cathedral, where mass will be celebrated at 9 o'clock, with Rev. Palmer Evans officiating. Interment will be made in Ross Bay Cemetery.

MACKEY.—The remains of Gertrude Mackay will be laid to rest this afternoon, the cortege proceeding from Hayward's B.C. Funeral Company's Chapel at 2 o'clock to Christ Church Cathedral, where service will be conducted by Bishop Schofield at 2:15 o'clock. Interment will be made in the family plot at Royal Oak Burial Park.

### DRASTIC MEASURE IS FORESHADOWED

Special Tribunal May Be Established in Irish Free State With Extraordinary Power

DUBLIN, Irish Free State, Aug. 11 (AP).—Charges that a band of gunmen was terrorizing parts of the Free State for political purposes were made by Minister of Justice Fitzgerald Kennedy in an address Sunday.

Men calling themselves the Republican army were drilling in military tactics, he said, and were trying to enforce the will of the minority on the majority.

It was understood his speech was a preliminary to the introduction into the Dail of a bill prescribing drastic measures to deal with the situation. It would establish a special tribunal empowered to try suspects without a jury and inflict capital punishment on those convicted of treasonable movements.

### WELL-KNOWN ONTARIO NEWSPAPERMAN DIES

KINCARDINE, Ont., Aug. 21.—James Hunter, sixty-four, one of the best-known weekly newspaper men in the province, a past grand master of the Grand Orange Lodge in Ontario West, and prominent in other fraternal as well as municipal endeavors, died at his home here today, after an illness of four months.

### The Rhyming Optimist

By Althea Michells

SURE OF HIMSELF  
The man who is sure of himself can go  
Unbowed by the burden of any woe,  
He can march without harm  
In the teeth of the storm  
And pay no toll to the winds that blow.

For, sure of himself, he can then be sure  
No ill is too great for a heart that is pure,  
Nor can life map out  
Ways so dark with doubt  
That a steadfast spirit can not endure.

The man who is sure of himself will be  
Direct and tranquil and proud and free;  
With a strength that can meet  
All the tides that beat  
On the shores of time and eternity!

## JURY RETURNS OPEN VERDICT

Death by Drowning Is Decision at Inquest of Major Holme

That Major Harold L. Holme, D.S.O., came to his death by drowning, was the verdict pronounced by a coroner's jury after hearing evidence concerning the tragic end of a brilliant soldier, whose body was found early Monday morning on the beach near Clover Point. An inquest was held yesterday morning by Dr. E. C. Hart, coroner, at Thomson & Fetterly's funeral parlors.

The evidence indicated that Major Holme had suffered from an affliction of the heart which made it difficult for him to mount stairways. According to the evidence, he was seen going down to the beach off Dallas Road about 7 o'clock on August 1, and he had with him a blanket. No person saw him alive after that. The body was found on Monday morning by G. A. Stewart on the shore, where it had been washed up.

The body was identified by several people who had known Major Holme, including Rev. S. Hart, Mr. Hart said he had not seen Major Holme since about the middle of June.

Other witnesses called were Thomas J. Walsh, Albert Keefe, who found Major Holme's clothes; Charles Vivian, Albert Herman and Ernest Franklin.

Plans for the funeral service for Major Holme have not yet been made, pending advices from the Old Country. The arrangements are in the hands of the Royal Trust Company.

### GRAVEL SLIDE KILLS TWO BOYS AT PLAY

BELLEVEILLE, Ont., Aug. 11 (CP).—Crushed under a miniature avalanche of gravel, the bodies of Harold Wannamaker, ten, Stirling, and Christie Loney, ten, Niagara Falls, were found in a gravel pit on the

Wannamaker Farm, near Stirling, late last night.

When the boys failed to return, Arnold Wannamaker, father of Harold, organized a search party. At the gravel pit traces were found of where the youngsters had been playing. A spot in the pit showed a slide had occurred and the searchers immediately dug down. The bodies were found under twelve feet of gravel and were still warm, but the boys were dead from suffocation.

## PROVINCES MUST SHARE GUARANTEE

Join With Dominion in Backing Credit of Wheat Pools to Seven Millions

WINNIPEG, Aug. 11 (CP).—The Winnipeg Evening Tribune publishes the following:

"The three Western Provinces, together with the Dominion Government, have guaranteed the credit of the wheat pools to the extent of \$7,000,000 in the marketing arrangements for the 1931 crop."

"The statement of the Premier's Monday was not clear on the point, but members of the Government who had not taken part in the actual negotiations, said their understanding was that the Dominion was the sole guarantor. This, it was learned today, is incorrect."

"In whatever guarantees have been given, each province is liable

HAYWARD'S

FUNERAL CO.  
Phones  
E 3614 G 7679

for an amount which has been fixed on a basis relative to the estimated 1931 crop. Saskatchewan's share is \$4,000,000; Alberta's, \$2,000,000, and Manitoba's probably less than \$1,000,000."

Paraguay plans an extensive highway-improvement programme.

WALTER P. CHRYSLER  
ANNOUNCES

# NEW PLYMOUTH

CANADIAN-BUILT

## FLOATING POWER . . . and FREE WHEELING

TO produce in 1931 an achievement in motor car design, engineering and pricing so revolutionary that it transcends every previous standard of quality, performance and value in the field of lowest price is to challenge the world.

That is precisely what the New Plymouth does.

Plymouth challenges with the greatest contribution Chrysler Motors engineers have made to modern motoring—"Floating Power."

For years, while designing fine Sixes and Eights for Chrysler, Dodge and De Soto, Chrysler Motors engineers have worked unceasingly for the perfected Four. Now they give you the results of their labors and discoveries—The New Plymouth, a quality car of lowest price with the Smoothness of an Eight and the Economy of a Four—due to Plymouth's exclusive Floating Power.

Here is power unshackled, yet power as smooth as satin, as soft as velvet. Here is power without

vibration—literally floating, power so silent that even experts could not name the number of cylinders under the Plymouth hood, and many guessed the New Plymouth to be an Eight.

Plymouth challenges with Free Wheeling in all forward speeds.

In the lowest-priced field Plymouth gives you this epochal development in smooth, easy driving and economy. With Plymouth Free Wheeling you can shift gears between all forward speeds without clutching.

Plymouth challenges with a new Easy-Shift transmission.

Besides Free Wheeling, Plymouth offers a new Easy-Shift transmission which makes it possible to shift not only from second to high at speeds of 35 to 45 miles an hour but back into second at these speeds, when you need sudden acceleration, without clashing or grinding.

Plymouth challenges with 56 brake-test horsepower.

Here is more power than you

ever need—with actual stop-watch speed of 65 to 70 miles per hour; pick-up from a standing start to 40 miles in 9.7 seconds.

Plymouth challenges with internal hydraulic brakes.

Among all cars in the lowest-price field, only Plymouth has weatherproof hydraulic brakes—simplest and unexcelled for safety and smoothness.

Plymouth challenges with double-drop frame.

Chrysler Motors engineers have given this high-priced car feature to the Plymouth. Plymouth has a still lower center of gravity, still greater safety, still greater riding ease, still finer style.

Plymouth challenges with entirely new styling.

We believe the New Plymouth establishes in the field of lowest price a new degree of artistic advancement.

By the principles of Dynamic Symmetry, Chrysler Motors designers have created outstanding and inescapable beauty.

Plymouth challenges with full-

size Safety-Steel body, with wire wheels standard, with hydraulic shock absorbers. No feature of luxurious comfort, of long-lived reliability, of economy, has been left out of the New Plymouth.

I am happy to extend to the entire motoring world a cordial welcome to see, to drive and to ride in the New Plymouth, and to invite comparison between this exceptional product of Chrysler Motors engineering and any car in the world at or near its price.

*W.P. Chrysler*

## Personals, Parties Visitors

### Official Calls Paid

Official calls were paid to His Honor the Lieutenant-Governor at Government House yesterday morning, the first visitor being received by Hon. J. W. F. Johnson being Chief Justice J. A. Macdonald. Others received were Commander V. G. Brodeur, Commander R. L. Agnew, of H.M.C.S. Skeena; Brigadier J. Sutherland Brown, Lieutenant-Colonel E. W. Pope, Lieutenant-Colonel A. Tremaine, Colonel Lorne Drum, Lieutenant-Colonel H. C. Greer, Major R. O. G. Morton, Major J. N. Gibson, Major H. M. Reynolds, Major J. O. Rycroft and Captain G. L. Macdonald. Mr. George Phillips, superintendent of the dockyard, also called. Later His Honor called at Work Point Barracks, the Naval Barracks and on board H.M.C.S. Skeena.

### Married at Chilcotin

Miss Rona Gilmer, daughter of Mr. and Mrs. George Gilmer, Goodwin Street, Oak Bay, was married on Monday at Big Creek, Chilcotin, B.C., to Mr. Richard H. Church, eldest son of Mr. and Mrs. H. A. Church, of Big Creek. Rev. J. R. Kester officiated. The church was charmingly decorated for the occasion. Given in marriage by her father, the bride made a charming picture in her gown of pale green flowered crepe and mauve mohair hat, her bouquet being of pink and cream sweet peas, wild mauve asters and gypsophylla. Her sister-in-law, Mrs. George Gilmer, was matron of honor and Mr. Fossberg was best man. A reception was held later at the home of the bridegroom's parents, and the guests received by Mrs. Church and Mrs. Gilmer, mother of the bride. Among the guests from Victoria were Mr. and Mrs. George Gilmer, Mrs. Charles Watson and Mrs. W. Lammer, sisters of the bride. After a honeymoon at Quenneville Dam, B.C., Mr. and Mrs. Church will make their home at Big Creek.

### Entertained Informally

Mr. and Mrs. Dowker entertained informally recently in honor of their son, Rev. G. W. Dowker, and Mrs. Dowker and little daughter, Phyllis. Out-of-town guests were Mrs. A. J. Williams, Mrs. Kidd, Mrs. Holman, Mrs. Compton-Lundie and daughter; Duncan and Victoria friends included Mrs. R. Drake, Mrs. Kingsbury and daughter, Mrs. Gyles, Mrs. and Miss Nicolls, Mrs.

Arthur Mallet, Mrs. Rendell, Mrs. H. M. S. Bell, Mr. and Mrs. Leslie-Melville, Eleanor and Peggy Leslie-Melville and Mrs. A. Ham.

### Shower Held

Miss Betty Barker gave a shower recently at the home of Mrs. T. Appleby, 309 Henry Street, in honor of Miss Myrtle Hoy. Many beautiful gifts of china and linen were received, and the drawing-room was decorated with pink and white carnations and fern. A buffet supper was served. Those present were Mesdames Hoy, Smith, Crawford, Baxter, McConnell, Barker, Dodd, Nuttall, Frampton, Appleby, and Misses Jean Flouwright, Bessie Butler, Irene Williams and Molly McConnell.

### Home After Holiday

Miss Elizabeth Edwards has returned home after spending her summer holidays with friends and relatives in Calgary, Edmonton and Vancouver, and was accompanied by Miss Kathleen Hunter, of Vancouver, who will visit Major and Mrs. Edwards until Strathcona Lodge School reopens.

### Entertains for Visitor

Miss Kathleen Clay, Linden Avenue, was hostess at a small luncheon party yesterday in honor of Miss Marion Robertson, of Vancouver, who is spending a few days with her uncle and aunt, Senator and Mrs. G. H. Barnard, Rockland Avenue.

### Week-End at Sooke

Among the week-end guests at Sooke Harbor House were the Hon. William and Mrs. Atkinson, Victoria; Dr. and Mrs. Alfred Atkinson, of the Montana State College, Bozeman, Mont.; Rev. and Mrs. J. Clark Stewart, Vancouver; and Dr. and Mrs. L. D. Miller, Denver.

### Returns to California

An interesting visitor to Victoria last week was Mr. Charles Mack, better known as one of the "Two Black Crows," who has been spending a quiet holiday here, registered at the Beach Hotel. He has now returned to Newhall, California.

### Hostesses at Dinner

Mrs. R. Wallace, Michigan Street, and Mrs. A. W. Campbell, of Regina, were joint hostesses at dinner and bridge recently in honor of Mr. and Mrs. Donald MacGregor, of Regina, and Mrs. E. Clark, of Nanaimo.

### Tennis Party Given

Miss Ines Carey entertained at a tennis party at her home on Rockland Avenue on Monday afternoon in honor of the Misses Betty and Phyllis Abbott, of Montreal, who are visiting Miss Alice Goff, Lansdowne Road, Uplands.

### Here for Golf

His Honor Judge Lampman is down from Shangan Lake to take part in the Seniors' Golf Tournament. Mrs. Lampman is at present the guest of Mr. and Mrs. D. J. Angus, at Shangan Lake.

### Leaving for Louise Inlet

Mr. and Mrs. J. H. Benning, accompanied by Brigadier and Mrs. J. Sutherland Brown, are leaving today on a cruise to Louise Inlet in their yacht, Sewickley. They expect to be away about ten days.

### At "Spencerwood"

Mrs. R. Powell and her three children, of Edmonton, are spending the remainder of the summer at "Spencerwood," the summer home of Mr. and Mrs. J. W. Spencer, at Saanich.

### Dinner Hosts

Mr. and Mrs. P. M. Hunter, of Pasadena, California, who are guests at the Beach Hotel, entertained at a dinner party last evening in honor of Mr. and Mrs. H. B. Turpin.

### Was Visiting Here

Mr. A. W. Campbell, of Regina, has been visiting Mrs. A. W. Campbell and family for a few days, and has left for the United States before returning to his home.

### At Ten-Mile Point

Mrs. J. B. Harding and children have moved from their home on Dufferin Avenue and are now staying with Mrs. Hincks, Ten-Mile Point.

### Visitors Here

Mrs. Oakley and Dr. Geraldine Oakley, of Calgary, and Captain F. B. Bagshaw, K.C. of Regina, are guests of Mrs. E. H. Bird, 6 Sylvan Lane.

### Move to New Home

Mr. and Mrs. J. M. Hedley and family have moved from Rockland Court to their new home, 1620 Belmont Avenue.

### Los Angeles Visitors

Mr. and Mrs. Thomas E. Perkins, 351 Robertson Street, have as their guests Mrs. W. B. Perkins and her son, Deane, of Los Angeles.

### At Cowichan Lake

Miss Barbara and Mr. Jack Twigg and Mr. Rupert Bromley are visiting Mr. and Mrs. J. R. Drost, at Cowichan Lake.

### At Sooke Harbor

Miss E. G. Lawson and Miss M. Reid, who have been spending a vacation at Sooke Harbor House, have returned to Victoria.

### Return Home

Mr. and Mrs. Hew Paterson have returned to their home on Victoria Avenue after a motor trip up the Island.

### Recovers From Illness

Friends of Mrs. W. Alden-Johnson will be pleased to hear that she has recovered from her recent illness.

Dr. and Mrs. Albert Edward Mackay, of Portland, Oregon, are staying at the Empress Hotel.

### Bridge Hostess

Mrs. R. H. B. Ker was a bridge hostess yesterday afternoon at her home, "Windover," Gordon Head.

### Weddings

### RENDLE-MCKENZIE

The marriage took place at the Smiths United Church on August 4, when Mary, only daughter of Mr. and Mrs. John McKenzie, of Smithers, became the bride of Mr. Frank Rendle, son of Mr. and Mrs. A. Rendle, of Victoria. Rev. D. Donaldson officiated, and a large number of guests attended the ceremony. Given in marriage by her father, the bride looked charming in her gown of ivory crepe-back satin and radium lace, her veil being held with a coronet of orange blossoms. Her bouquet was of pink Ophelia roses and purple heather. Miss Netta McLeod, of Prince Rupert, was bridesmaid, wearing a frock of pale green chiffon and a beige picture hat. The bride's mother wore a gown of black georgette and a black and white hat, and the groom's mother was attired in navy blue flat crepe and hat to match. Mr. John McKenzie, brother of the bride, was best man. During the service Mrs. L. B. Warner sang "O Promise Me." A reception was held at Smithers Hall, where many friends offered their good wishes to the bride and groom. The groom's gift to the bride was a diamond brooch, and to the bridesmaid a jade and crystal necklace, and to the best man a pearl tie pin. To the groom the bride gave an amethyst tie pin. After a honeymoon in the Southern cities the bride and groom will make their home in Victoria. For traveling the bride wore a three-piece suit of lilac crepe, a fox fur and hat to match. Out-of-town guests included Mrs. A. Rendle and Miss Lily Rendle, of Victoria; Mr. and Mrs. McLeod and Mr. and Mrs. Pendergast, of Prince Rupert.

### LEAVING FOR LOUISE INLET

Mr. and Mrs. J. H. Benning, accompanied by Brigadier and Mrs. J. Sutherland Brown, are leaving today on a cruise to Louise Inlet in their yacht, Sewickley. They expect to be away about ten days.

## Spanish Princesses In Ireland

### BEIRATH, Northern Ireland, Aug. 11 (AP).—Infanta Beatrice and Infanta Maria Christina, daughters of former King Alfonso of Spain, arrived in Belfast today on a visit.

The princesses were accompanied by their brother, Don Jaime, and party of Spanish noblemen traveling from London to Liverpool in train compartments reserved for "Mr. Smith."

They were greeted by the Marquis and Marchioness of Londonderry, whose guests they will be during their stay. They are due back in Fontainebleau, France, on August 24 to meet their father on his return from Scandinavia.

### Visits France and Sees Sacred Scenes

Extracts from a letter received by Herbert Kent, Victoria, from Mrs. Young, Beckingham, Kent, are interesting as affording a comment on the preservation of landmarks in France made sacred by Canadians during the war. Mrs. Young has several times visited Victoria to stay with her daughter, Mrs. Frank Allwood, who is now visiting her in England.

Mrs. Young says: "My trip abroad this time was one of great interest. I went to Poperinghe and saw the original beginning of T. H. Just an ordinary house in a quiet street, but within its door it seemed to radiate peace in the best sense. I could not keep tears back from my eyes. Every room is so packed with history—and the peace of it all! One feels it certainly is sacred ground and is always to be kept in a perfect state. The attic at the very roof was the chapel, and it is just in its rough rafters that the original altar stood. One end of the room has a very simple table erected, and there the sacrament was given to the soldiers."

### TODAY'S RECIPE

### DAMSON PICKLE

Eight pounds of fruit, four pounds of brown sugar, one quart of vinegar, one cup of mixed whole spices, cinnamon, allspice and a few cloves put together in a bag and boiled with the sugar and vinegar. Skim and add the fruit. Cook all together for ten minutes or until tender. Skim out the fruit and put into stone jars. Boil the syrup for five minutes longer and pour over the fruit. Next day pour off the syrup and boil again. Do this for three mornings, keeping the bag of spices in the vinegar. Then seal up the fruit.—Prudence.

### LADY MOUNTBATTEN HAS NARROW ESCAPE

PARIS, Aug. 11 (AP).—The Paris edition of The Chicago Tribune said today that Lady Louis Mountbatten, wife of a cousin of the King, narrowly escaped drowning Sunday when she was seized with cramps while swimming in France.

She was rescued by Captain Robert Cunningham Reid, her brother-in-law, and by Stephen Sanford, New York polo player, and was brought ashore in a state of collapse. She was not revived for a considerable time.

Lady Mountbatten, the former Edwina Ashley, was credited with being the richest heiress in England before her marriage in 1922.

"VICE SQUAD" IS  
STORY OF CRIME

Paul Lukas Heads Cast as "Stool Pigeon" in Dominion Film, Starting Today

Public attention has been centred for many months upon the sensational disclosures of crime-combating activities of the authorities in

the larger American cities. Methods before unheard of have been bared in the revealing reports in the daily press. The words "framed," "stool pigeon," "shake-down," and many others depicting underworld activities have acquired new and more potent meanings.

In "The Vice Squad," now playing at the Dominion Theatre, Paramount plunges to the heart of this situation in dialogue and action. Conditions as they exist in many cities today as bared in the public press are crystallized and held up to popular scrutiny in this fast-moving and

Playhouse—Will Rogers in "A Connecticut Yankee."

absorbing tale from the typewriter of Oliver H. P. Garrett, the former New York reporter who wrote "Street of Chance" and "For the Defence."

Theatre in her latest Paramount production, "The Night Angel." "The Night Angel" is another of the remarkable products of the very fertile mind of Edmund Goulding, the director who wrote and directed "The Troop" and "The Devil's Holiday." Also on the same bill is "The Great Madam Holton," the mysterious mind reader.

COLUMBIA Sam Taylor's ripe experience in creating laughs for the screen as scenarist and director of Harold Lloyd, over a period of years, has again been utilized, this time in "Kiki," starring Mary Pickford for United Artists. Taylor wrote the screen play and directed his production with the intention of getting a laugh a minute. "Kiki" is now showing at the Columbia Theatre.

"TONS OF MONEY" IS  
CELEBRATED COMEDY

"Tons of Money," coming to the Coliseum Theatre Saturday, is a celebrated farce. It was first produced at the Shaftesbury Theatre, London. At once the immense success. During the run the theatre was required for another play and "Tons of Money" was transferred to the Aldwych Theatre, at that time the white elephant continued its success but established the fame of the Aldwych Theatre. Ralph Lynn, Yvonne Arnaud, Mary Brough, and Robertson Hare, who played in the stage version, are in the new talkie which will be shown next Saturday.

ASKED TO COUNT  
SHOOTING STARS

PASADENA, Cal., Aug. 11 (AP)—Amateur astronomers in all parts of the continent were asked last night by Alfred H. Joy, Mount Wilson Observatory expert, to count meteors tonight and Wednesday night in showers expected when the earth's orbit intersects that of the Perseids. "It is probable more than a million meteors will be visible from different parts of the country," Joy said. "In order that the study of the phenomena may be complete, the general public is urged to spend a few hours in the dark, away from the lights of the city, counting the 'shooting stars.' Accurate reports of the place of observation and descriptions of any, especially bright meteors or any with tails, will be valuable. "The data will be collected by Dr. Charles P. Oliver, of the University of Pennsylvania, to whom the amateur records should be sent." Joy explained that the meteors belong to the constellation Perseus and that the meteors have never failed to appear on August 11 and 12 in the last century.

## MARINE and TRANSPORTATION

Transpacific Ship  
Brought Valuable  
Shipment of Silk

Princess Maquinna Out With Many Tourists—  
California Liner Sailed South—Aorangi Bring-  
ing Delegates to Empire Service Convention

From the Philippine Islands via China and Japan ports, the American Mail Line S.S. President Taft, Captain K. T. Ahlin, commander, arrived alongside Rithet Pier at 6:45 o'clock yesterday morning, and after rushing freight ashore, sailed at 9:30 o'clock for Seattle, where the liner will have certain alterations made in her accommodations to permit of travelers embarking in the special class established with the departure of the President Cleveland of the same line from this port last week-end.

The President Taft had thirty-nine passengers and ninety in the staterooms. Two cabin and stateroom travelers got off here, the balance proceeding to Seattle. For Victoria, the liner discharged about 500 tons of cargo, including a valuable silk shipment, which is routed to the Atlantic Coast via San Francisco. The silk shipment consisted on close to 1,500 bales, valued at \$1,000,000.

Among the President Taft's passengers were H. V. Blackley, of Seattle, en route to London; Stanley Briggs, connected with the Findlay Miller Timber Company of Manila; Samuel Dmitroff, fur buyer of Tientsin, proceeding to New York City; Vernon C. Genn, sales manager of General Motors Export Company at Sukagawa, Japan; and for Chicago and Detroit, Robert J. Kerper, professor of modern history at the University of California, returning home from an Oriental tour; Clarence McAdam, of the Philippine Refining Company of Manila, going to New York on business connected with his firm; and E. D. McKay, president of the Pacific Pearl Bead Company, Seattle, returning home from a business visit to Orient countries.

**WELL PATRONIZED**  
With her accommodations all taken, the B.C. Coast Service S.S. Princess Maquinna left the Belleville Street docks of the Canadian Pacific Steamships for Port Alice via West Coast of Vancouver Island points at 11 o'clock last night. Included in her list of vacationists were a number of Victorians.

Among the round-trip tourists going out on the Maquinna were J. M. L. Daintrey, Mrs. R. Laurison, Miss G. Murray, Mr. and Mrs. M. Murhead, Mr. and Mrs. J. Smith, R. T. Cooper, Miss C. Smith, Miss Van Camp, Mr. and Mrs. A. Waite, Miss K. Todd, Mrs. J. B. Todd, Miss R. Whitfield, Miss Wedderburn, Miss E. Dunlop, Mr. N. Styan, Miss Driver, Miss Goudie, Miss M. E. Schofield, Miss D. Schofield, Mr. and Mrs. Marylin Oliver, Mrs. J. E. Walker, Mr. and Mrs. F. Frizzell, Master Frizzell, W. Pedersen, Rev. Acheron Lyle, Miss G. Murray, Miss M. Dyke and R. T. Clarke.

Other passengers who will leave the Princess Maquinna at different points on the coast will be M. R. Ashcroft, E. Edwards, Mr. and Mrs. H. R. Ellis, Mr. and Mrs. J. Moore, Mrs. R. Fletcher, Miss Fry, M. Coupland and J. C. Gilmour.

Outbound for California ports, the Pacific Steamship Company's coastal liner S.S. F. Alexander arrived alongside of Rithet Pier at 9 o'clock last night, and after embarking passengers awaiting her arrival here and loading some 1,500 bales of raw silk left by the President Taft, sailed at 11 o'clock for San Francisco, her first port of call in the South.

Among the passengers sailing South on the F. Alexander were Miss Katharine Clark, Dr. O. G. Hassard, Thomas Hassard, Lawrence Driscoll, Miss E. Cross, Miss E. Perow, Mr. and Mrs. Stanley Reeve, Miss Elizabeth Reeve, Miss K. Roosevelt, Miss Jeanette Reeve, Miss Edna Reeve, Miss Evelyn Lytton, Mrs. M. L. Dunsmuir, Miss Marjorie B. Moore and Mrs. E. Callahan.

**AHEAD OF SCHEDULE**  
Running well ahead of her scheduled time of arrival, the Canadian-Australasian motor liner Aorangi, Captain J. F. Spring-Brown, commander, will arrive at William Head quarantine station about 9 o'clock Thursday morning, according to wireless advice received here yesterday. This should bring her up to Rithet Pier about 10:30 o'clock to leave passengers and discharge local cargo before proceeding to Vancouver.

The Aorangi is bringing 152 pas-

## Document Has Local Interest

**RADIOGRAM**  
FROM WILKINS—ELLSWORTH  
TRANSARCTIC SUBMARINE EXPEDITION

VIA AMERICAN-RADIO NEWS CORPORATION

Handwritten signatures and names, including: R. A. Wilkins, E. Ellsworth, and others, along with the text "Radio Telegram" and "Transarctic Submarine Expedition".

BEFORE the Nautilus left Plymouth on her history-making voyage to the North Pole under the Arctic ice, the members of the crew wrote their signatures on telegraph blanks specially printed for the expedition, each member becoming possessed of a copy. V. Stavrakos, second engineer of the Nautilus, sent his copy to his mother, Mrs. J. C. Stavrakos, who makes her home in Victoria, who loaned it to the local representatives of the Chicago, Milwaukee, St. Paul & Pacific Railway, where it was on exhibition for several days in the company's office.

## VANCOUVER SHIPPING

VANCOUVER, Aug. 11 (CP).—British Columbia Agencies, Limited, report the freighter Danwood due here August 17 to load logs for Japan.

The annual meeting of the Vancouver Grain Exchange will be held Wednesday afternoon at the exchange board room in the Marine Building.

Keth J. Middleton, past president of the Seattle Chamber of Commerce, director for the shipping organization of Dowell Company, and a Seattle delegate here to the convention of the port authorities, will be speaker at a luncheon of the Board of Trade on Friday.

Middleton will speak on international relationship and its necessity.

San Francisco dispatches announce a complete change in the board of directors of the French Line. Andre Homberg, formerly president and chairman, has retired and is succeeded by Raoul Daury.

Rene Fould remains vice-chairman, Maurice Tiller retires from the post of managing director and assumes the post of advisory director, and Henri Garguelles becomes managing director.

Empire Shipping Company, Limited, announces that indications of the advantageous results of the Australian treaty already are being noted.

San Francisco, which left Sydney, N.S.W., August 4, for this coast, has a large consignment for Vancouver, including 8,000 cases of dried and canned fruits and a large consignment of Australian peanuts.

**Gulf Islands Service**  
GANGES, SALT SPRING ISLAND, WAYNE, PENDER ISLAND, PORT WASHINGTON, GALLIANO.

Tugboats Fail  
To Free Liner  
Western World

RIO DE JANEIRO, Aug. 11 (AP).—The Munson liner Western World, aground on the rocks off Ponta do Bel, could not be budged by tugboats at high tide during the night, and in shipping circles here it is thought she may never be refloated. An inshore current sweeping past the dangerous shoal is believed to have driven the ship aground, and shipping men say that the rocks have a powerful magnetic attraction, which sometimes sends compasses off as much as ten points.

HONDURAN FLYER  
FELL INTO SEA

Captain Llandro Garay Picked Up Exhausted by Passing Steamship

NORFOLK, Va., Aug. 11 (AP).—Captain Llandro Garay, Honduran flyer, who hopped off Sunday afternoon on a non-stop flight from Brooklyn to Tegucigalpa, Honduras, was picked up at 10 o'clock this morning by the steamship Biboco, twenty miles east of Cape Lookout, a message received at the local consular office said. Garay reported he had been forced down Sunday night and had clung to his badly damaged plane until picked up. He was exhausted when rescued. Garay sustained a fractured jaw and minor cuts on the body. Otherwise, he was unharmed, the consular dispatch said.

NEW YORK, Aug. 11.—Victor Welskoff today announced receipt of a wireless message from Captain Llandro Garay, who attempted a New York-to-Honduras flight, saying:

"Fell into sea Sunday midnight. Picked up by Biboco noon today. Exhausted. Slightly wounded. Otherwise O.K. Reaching Savannah, arrive tomorrow night."

Yukon and Atlin

## Securities Move Up Suddenly on New York Market

NEW YORK, Aug. 11 (AP).—Active backtracking by the shorts today gave the stock market its rally since late in June, when Wall Street was enthralled over the war debt moratorium. Support for the beleaguered rally, which had been threatening to break their years' low, and increasing resistance of pivotal industrial and utilities in recent markets weakened the courage of bears and their repurchases boosted quotations on numerous principal issues from 20 to 6 points. The turnover of 1,614,580 shares was the largest since July 15. There had been volume of over a million shares this month.

With rally apparently holding the key to market action, the upturn in these issues, after a few had made new minimums, was regarded as important evidence of an overvalued condition.

**RALLY IS TECHNICAL**  
Wall Street attributed the general rally to technical causes, but the quick reversal nevertheless brought the usual quota of cheer that follows such changes in sentiment.

So brisk was the rise that top prices attracted profit taking. United States Steel, which touched 90, fell to 87-8, where the net gain was 3 points. American Telephone's 7-point rebound was cut to 61-2, while New York Central reduced an extreme rise of 5-1/2 to 33-4 points. Rock Island Union Pacific, Southern Railway, and Baltimore & Annapolis scored net advances of 3 to nearly 7.

**OTHER ADVANCES**  
American Can, Westinghouse, National Biscuit, Sears-Roebuck, North American, Consolidated Gas, International Telephone, Bethlehem, International Harvester and General Electric closed 1-5/8 to 4-3/8 higher. Such rapid movements as Allied Chemical, Case and Eastman Kodak had net gains of more than 6, while Auburn was up 8-5/8.

A rise in the Argentine gold peso

featured foreign currencies, which, on the whole, were firm. Sterling was steady at \$4.85 3/4 for cables.

**THE BOND MARKET**  
The bond market wavered back and forth today with the result that net changes were divided about evenly between gains and declines. Activity showed a moderate increase, partly because of the selling pressure on the rails. Sales on the New York Stock Exchange totaled \$3,966,000, the largest total for a full session since July 25, when the turnover amounted to \$9,987,000. Foreign issues advanced irregularly, but railroad obligations continued to decline.

## We Wonder

By C. M. Payne THE TOONERVILLE TROLLEY THAT MEETS ALL THE TRAINS

FREE THEATRE FOR POOR producer, has announced he will also from students at the academy launch the project. The actors, who miss. The only expense will be rent will be unpaid, will be drawn from those who have become independent nominations will be asked to choose and have given up the stage, and the audience.

which has stuck in our language all through the centuries, though cancer and cancer, of course, have long since been separated into their modern medical categories.

NEW CABLEWAY IN INDIA

India's new aerial cableway connecting Kalimpong with Reang has just been opened, and is considered one of the country's greatest engineering feats. Kalimpong is 3,300 feet above and twelve miles from Reang, and it has required carts from eighteen to twenty-four hours to cover the distance. The cableway has reduced this time to one and a half hours. It is seven and one-half miles long. The highest tower is 139 feet.

WHY DO WE CALL IT "CANCER"?

We would hardly suspect that there was any relationship between the words "cancer" and "crab," yet that is how it started.

We have our word "cancer" from the identical Latin word meaning "a crab," the word itself being taken from the Greek, in which language it had the same meaning.

However, the Greeks thought that the swollen veins accompanying certain diseases, among which are what we know as cancer and cancer, resembled a crab's claws. And so they applied this same word to the diseases—an application

"Mrs. Allblow was just telling me her daughter has married a man of means."

"And she's quite correct for if there was ever a man who means to do this, that, and the other, and never does anything, he's the man."

## Jubilee Problems Common to Nearly All Hospitals Now

Dr. A. K. Haywood Presents Comprehensive Report Following Investigation Into Hospital Administration—Recommendations Minor

THAT the Jubilee Hospital business administration is in capable hands, but that some cost analysis system should be installed in order to trace and explain fluctuations in expenditure and enable the board to meet any criticisms; recommendation that the hospital should be placed on a budget system and funds voted at the beginning of each year to enable it to take advantage of trade discounts; comment on the heavy percentage of nonpaying patients, with the rider that "no institution that is giving one-third of its public services free of charge, with the exception of provincial and municipal grants, can do otherwise than show a deficit"; and warning that, in view of the marked increase in fees collected from patients for the first six months of the current year as compared with the first six months of 1929 and 1930, "the board should be prepared to face still further increase in expenditure over income for this year" were among the points brought out by Dr. A. K. Haywood, of Vancouver, in the report which he submitted yesterday to Mayor Herbert Anscombe and the president of the Jubilee Hospital board, following a searching investigation which he made into the hospital affairs at the request of the city.

Dr. Haywood, several times emphasized that problems being experienced by the Jubilee Hospital were common to most hospitals the world over at the present time. In some respects the local institution was specially praised, as when the report commented on "the efficient manner in which the patients' records are kept." And in discussing the question of whether too many or too few nurses were employed at the Jubilee, he remarked that "the ratio of nurses to patients is about correct, on the basis of one nurse to every two patients."

**COMPREHENSIVE SURVEY**  
The survey is remarkably comprehensive, exploring all the details of hospital organization and administration. Some alterations in the personnel of the board are recommended, including the resignation of three members of the French Benevolent Society by an additional three elected by subscribers, and the limiting of representatives from the Victoria Medical Society to one. It is also recommended that board members be elected for a two or three-year period instead of only one year; that up-to-date by-laws, rules, and regulations be drawn up; and that the publicity committee show greater activity.

**INTERNAL ECONOMY**  
In matters of internal economy further suggestions were made: centralization of stores was recommended, criticisms being leveled at the present scattered arrangement of storerooms; kitchen facilities were found inadequate, with "discouraging conditions in regard to the preparation and storing of food," and the installation of a modern kitchen and of modern food conveyors is recommended. The question of establishing an independent department for house-keeping is advised.

Dr. Haywood thinks that chronic and incurable patients, "some of whom have been in the hospital since 1925," could be looked after much more economically in an institution built for the purpose. He also considers the Jubilee Hospital a much too generous in respect of the visiting hours, which is not "in the best interests of the patients."

**SIMILAR TO OTHERS**  
In respect of the relation of income to expenditure the conditions at Jubilee are considered analogous to those at other hospitals throughout Canada, but more accurate accounting and installation of some form of cost analysis system is recommended. The recommendation is made that the board should consider the advantages of establishing an endowment fund to take care of requests which have hitherto been used for capital expenditure.

"Since 1913 the hospital has received \$335,256.84 in requests for capital expenditure, speaking very well for the generosity of citizens of Victoria and the esteem in which they have held the hospital," Dr. Haywood remarks.

Absence of liability insurance for the employees or for the public, and lack of knowledge of the law among the staff are other points to which attention is called. The board is advised to study Dr. Weir's nursing survey report, which due shortly, as this might influence the directors in reducing the size of its nursing training school.

**REPORT IN FULL**  
The report in full is as follows: "Under the Jubilee Hospital, the board of directors is composed of five members appointed by the city, three appointed by the Provincial Government, three by the adjacent municipalities of Esquimalt, Oak Bay and Saanich, four by subscribers, three by the French Benevolent Society and three by the Victoria Medical Society, making a total of twenty-one. I note by the minutes of the board of directors that one delegate from the French Benevolent Society has died and that although notification in writing was given to this society, they have not as yet appointed a third representative. I also found that the remaining two representatives of the French Benevolent Society never attend the board meetings.

**PERSONNEL OF BOARD**  
"I would suggest, with the approval of this society, and if it is still the desire of the board of directors to keep their complement to twenty-one, that the three members of the French Benevolent Society be replaced by an additional three elected from the subscribers. This would necessitate a change in the Hospital Act, but would add three representatives to the board, who, by their attendance, may be of value to the institution.

"I question the advisability of appointing three members from the Victoria Medical Society, for I feel that if it is the wish of the board of directors that the Victoria Medical Society should have representation on the board, that one member of the society nominated by it to represent the society should be sufficient. Also that the consulting staff of the hospital should be represented on the board of directors as

our leading training schools may ultimately decide to reduce the size of their training schools and augment the nursing service by more graduate nurses.

### ENDOWMENT FUND

"According to the records, the hospital has received in bequests since 1913, \$335,256.84. The majority of these have been spent for capital expenditures. Your board should consider whether this has been the wisest course, or whether these moneys should have been placed in an endowment fund, the interest on which to be applied to the running expenses of the hospital. The number of these bequests, thirty-two in all, in the absence of any definite campaign of publicity, speaks very well of the generosity of the citizens of Victoria and the esteem in which they have held the hospital.

"There are two schools of thought regarding the establishment of an endowment fund. One school maintains that all legacies should be placed in such a fund, the revenue to be used for operating expenses. The other school maintains that the future should take care of itself, and that the responsibility of financing the hospital in the future will rest upon the shoulders of those in authority at that time. This school adopts the practice in vogue by your board at the present time, and 'My own personal view would be the establishment of an endowment fund and that capital expenditures should be met by specific grants.

**BUDGETING**  
"In the short space of time at my disposal, I arrived at the conclusion that the business administration of the hospital was in capable hands, but in view of your increasing expenditures and increasing excess of expenditures over income year by year, undoubtedly credits will be levied at the administration of the hospital. In order to meet these claims may be refunded in detail, I would suggest that an adequate cost analysis system be installed, in order that the administration and the board of directors might be informed from month to month in detail the reasons for this increase by departments. At the present time that is not apparent, it is possible that the hospital on a budget system, arranged after consultation with the head of each department, and would also necessitate some system of distribution to enable the business administration to arrive at the annual cost of the administration of the various departments.

**BENEFIT BY DISCOUNTS**  
"In the event of a budget system being established, the funds should be voted at the beginning of the year, to enable the business administration to accept the usual trade discounts. At the present time your hospital accounts are only paid up until the month of March, 1931, and in view of the fact that the length of time for a settlement of their account, it would not seem reasonable that the hospital would secure the same prices as they would secure were they enabled to take advantage of the trade discounts by the prompt settlement of accounts.

"The variation in the monthly figures is undoubtedly due in the main to the practice of charging up for the month's invoices. It is possible that the articles specified on the invoices were for a six months' of a year's supply.

**STORES SCATTERED**  
"From a casual investigation of the various stores departments, I would recommend that, as early as your board could accomplish it, the board be wise to centralize the various stores under a competent receiving clerk for the reception of the distribution of them. At the present time there are so many storerooms it would seem almost impossible for any one official to supervise a proper control of them. For example, the Assistant Matron has under her control crockery, glass, enamelware, etc. The seamstress has charge of the linen supplies. A storeroom is in charge of groceries; a chef is in charge of the meats, dairy products, vegetables, etc. The general office is in charge of the stationery; a dispenser is in charge of chemical forms, surgical supplies, drugs, etc. The engineer, carpenter and painter each supervises his own storeroom. While there was not the slightest indication of any dishonesty on the part of any of these employees, such a system would not meet with the approval of the average business man.

**COST AND INCOME**  
"Figures were obtained for the last three years showing the actual income and expenditures. These figures are illuminating in the light of the present conditions, and are quite analogous to those submitted by hospitals throughout Canada. For example, total income: 1928, \$293,361.25; 1929, \$304,944.78; 1930, \$297,048.71. The income from patients for the same three years was: 1928, \$161,652.23; 1929, \$174,879.91; 1930, \$165,451.61. The patient days for those years were: 1928, 81,701; 1929, 82,124; 1930, 84,351. According to the figures for the first six months of 1931 there is a corresponding drop in the patients' receipts. The expenditures on the other hand have increased. For example, 1928, \$301,184.58; 1929, \$311,818.00; 1930, \$320,184.26; showing an excess of expenditures over income for 1928, \$7,823.33; 1929, \$8,873.22; 1930, \$23,135.58.

"The marked increase in expenditures for the year 1930 would appear to be in the administration, maintenance, heat and light, repair and renewals. While a satisfactory explanation of this increased expenditure might be secured in time by the institution of a correct departmental accounting and the installation of a cost analysis system would bring these facts to light month by month and enable the administration more accurately to keep within a budget.

**DEPRESSION AND FEES**  
"There is no doubt that the present depression is directly responsible for the decline in the fees collected from patients, and yet on the other hand it would seem possible to increase these rates if a more accurate statement of the financial standing were secured before the patient was actually admitted to the hospital. As I understand the present system is for the doctor who admits to have a patient admitted to the hospital, to telephone to the switchboard of the hospital that patient X was to be admitted. Upon arrival at the hospital, the switchboard operator, after inquiring from the patient as to which ward he is to go, calls the nurse from that ward, who takes the patient to the ward, and fills out an admission slip in duplicate, which the patient may sign. If the patient is seriously

ill, this practice cannot be followed. The result of this system is that patients sign an agreement which they are not able to carry out, and it is possible in some cases that a more complete financial investigation would elicit the fact that friends or relatives might be responsible for this account. This guaranteed form of payment should not be signed by minors or others who could not be held legally responsible.

**HOSPITAL REVENUE**  
"The fear that hospital authorities might offend their patients if more stringent measures were taken, has not been borne out by practice. It is possible in some cases that a more complete financial investigation would elicit the fact that friends or relatives might be responsible for this account. This guaranteed form of payment should not be signed by minors or others who could not be held legally responsible.

"I understand that there is no provision at the present time for the superannuation of pensioners of old employees. While this might not be a very pressing problem for the board at the present time, it is one that is facing many hospitals and causing their boards of directors considerable concern.

"It is also noted that except for a selected few of the employees, who come under the Workmen's Compensation Act, the hospital does not carry any liability insurance either for its employees or for the public, other than elevator insurance. While the hospital may have been fortunate in the past in this regard, careful thought should be given to the hospital's responsibility in the future.

**FIRE DRILL URGED**  
"I would suggest that more consideration be given to this important subject. It is a recognized fact that it is not possible nor wise to hold fire drills where patients are concerned, but on the other hand, I notice a lack of knowledge on the part of many of the employees as to their station and duties in the event of a fire alarm. It is not only impracticable but possible to institute fire drills among the employees, both professional and lay, of a hospital without disturbing the patients.

"I would suggest that fire exits be marked by red lamps, that the advice of the underwriters be secured as to the advantages of additional portable fire extinguishers, and that instructions in their use be given to all employees of the hospital. The question of the installation of a fire alarm signal for the various buildings should be gone into, as at present the telephone is the only means of communicating the outbreak of a fire or its location.

## WINDSTORM BLOCKS ROAD AND REVIVES SMOLDERING FIRE

SOMERSET, Aug. 11.—On Sunday night a windstorm started the sawdust pile on Mount Prevost which has been smoldering since Spring, but was put under control. The fire spread over a small piece of land but had already been burned over.

The Mount Prevost Road was blocked, there being sixteen big trees and a great deal of small stuff over the road below the big road. The Municipality of North Cowichan is having the trees removed.
